Systems Concept for Organic Waste Processing

The Systems Concept

- | | |
|---|---|
| 1 bio-waste bunker | 12 HUBER Screw Press S-PRESS (RoS3) - sludge dewatering |
| 2 grease trap waste tank | 13 HUBER Belt Dryer BT - middle temperature drying |
| 3 mill + metal recovery | 14 biofilter |
| 4 pulper | 15 dried sludge silo |
| 5 HUBER Complete Plant ROTAMAT® Ro5 - pre-treatment | 16 heat supply to dryer |
| 6 HUBER Screenings Wash Press WAP® SL (super-laundry) | 17 wastewater tank with stainless steel HUBER Manhole Cover |
| 7 HUBER Coanda Grit Washer RoSF4 | 18 chemicals dosing |
| 8 HUBER Sludgecleaner STRAINPRESS® - sludge screening | 19 tubular reactor |
| 9 anaerobic digester | 20 HUBER Dissolved Air Flotation Plant HDF |
| 10 gas holder and flare | 21 process water tank |
| 11 power / heat cogen. | 22 flotated sludge |
